## Subject Index

## A

Absenteeism, effect of improving primary care depression management (O), 1202

Access to care

- antirheumatic drug use for rheumatoid arthritis and specialty care (O), 907
- changes in usual source of care (O), 975
- characteristics of occasional and frequent ED users (O), 176
- county racial composition and (O), 707
- disparities in children's access (O), 884
- health effects of cost-related medication restriction (O), 626
- new medication in Germany (O), 487
- older patients with serious mental illness (O), 1073
- outcomes of states' support-for-service programs (O), 560
- persons with HIV (O), 129
- prescription drug benefits and Medicaid acquisition (O), 1056
- rationing to medically uninsured (O), 303
- regular screening across racial/ethnic groups (O), 914

Acquired immunodeficiency syndrome

- pain and use of outpatient services (O), 129
- sensitivity of AIDS case-finding algorithm (O), 756

Activities of daily living

- comparing alternative measures of functional limitation (O), 19
- depression, chronic illness, and functional limitation (O), 502
- instrument substitution in rehabilitation PPS (O), 155
- rehabilitation outcome measurement (O), 1-62

Activity outcome measurement, for postacute care (O), 1-49

Acute myocardial infarction

- beta-blocker use after, hospital-level improvement (O), 591
- mortality and nurse staffing (O), 4

Adherence

- asthma prescription measures (O), 465
- compliance measures, medication adherence (O), 649
- depression treatment, effects of pharmaceutical promotion (O), 1176
- medical adherence research (E), 197
- medication, diabetes patients (O), 102
- missed appointments and poor glycemic control (O), 110
- quantitative review (O), 200
- racial differences in preventive care (O), 1009
- telecommunications system for sleep apnea (O), 764

Administration, ownership status and patterns of hospice care (O), 432

Administrative data

- accuracy, health information systems (O),

## 1066

comparison of comorbidity indices for ICD-9-CM data (O), 355

coronary care units and cardiac disease outcomes (O), 147

diabetes service receipt and mental disorders (O), 1167

role of patient sample definitions for quality indicators (O), II-21

strategies to control costs and quality (O), III-24

validity of procedure codes (O), 801

Adolescents, outcomes research, directions for future inquiry (O), III-19

Adverse events, role of patient sample definitions for quality indicators (O), II-21

Aging

- decreasing variation in hospice use (O), 116
- insurance effect on prescription drug expenditures (O), 439
- risk factors for major depression (O), 502
- treatment for ductal carcinoma in situ (O), 267

Alcohol and drug services, screening and treatment in primary care (O), 1158

Alcoholism treatment, effect on medical care use (O), 395

Algorithms, sensitivity of AIDS case-finding algorithm (O), 756

Alternative and complementary medicine, traditional healing use among American Indians (O), 670

Ambulatory care

- comparison of NAMCS measurement approach with direct observation (O), 276
- race/ethnicity differences in congestive heart failure management (O), 680
- variations in practice between VA and private setting (O), 1019

American Indians, biomedical and traditional service use (O), 670

Angiotensin-converting enzyme inhibitors, reference pricing, net health plan savings (O), 653

Antidepressant use

- differences among patient treatments in Veterans Administration (O), 551
- effects of direct-to-consumer advertising (O), 1176

nursing homes

- impact of prospective payment system (O), 48
- organizational characteristics (O), 992

APACHE, socioeconomic status and outcome from intensive care (O), 943

Appointments and schedules, high-risk diabetic patients (O), 110

Area characteristics, access and county racial composition (O), 707

Arthritis

- as risk factor for major depression (O), 502
- self-management interventions (O), 346

Asian Americans, with limited English

## proficiency, surveying (O), 893

Asthma, prescription measures (O), 465

Attitudes, altruism, incentives, and organ donation (O), 378

## B

Baldridge National Quality Program, leadership and management principles (O), III-31

Blot design, outcomes research priorities, private purchaser perspective (O), III-6

Biomedical services, use among American Indians (O), 670

Bisphosphonates, quality of life among patients with breast cancer (O), 164

Blacks, admission to high-deficiency nursing homes (O), 456

Breast cancer

- decreasing variation in hospice use (O), 116
- health-related quality of life (O), 164
- tamoxifen therapy, recommendation, physician specialty and perceptions, 700

Burnout, nurse, patient satisfaction and (O), II-57

## C

Canada

- drug spending, recent trends and causes (O), 635
- validity of procedure codes (O), 801

Cancer

- decreasing variation in hospice use (O), 116
- Medicare data and cancer surveillance (O), 1111
- screening

  - effectiveness of cervical screening (O), 600
  - Peters-Belson approach to study disparities (O), 789
  - regular, across racial/ethnic groups (O), 914

Capitated health care, effects of payment method on clinical decision-making (O), 297

Capitation, clinical risk groups (O), 81

Cardiac rehabilitation, automatic referral (O), 661

Cardiovascular disease

- automatic referral to cardiac rehabilitation (O), 661
- outcome of patients admitted to coronary care units (O), 147
- racial differences in preventive care (O), 1009

Care coordination, strategies to control costs and quality (O), III-24

Carotid endarterectomy, quality improvement interventions evaluation (O), 690

Case mix, predicting healthcare costs (O), 1027

Center for Epidemiological Studies Depression (CES-D) scale, interview mode effect (O), 281

Certification, GP, quality and (O), 770

Cervical screening, opportunistic, effectiveness and efficiency (O), 600

Charlson/Deyo method, comorbidity measurement in administrative data (O), 355

Child Health and Illness Profile (CHIP)—Child Edition  
parent report form, reliability and validity (O), 210  
predictors of children's health care use (O), 232

Children  
development, first 3 years of life (O), 91  
health services, outcomes research, directions for future inquiry (O), III-19  
parent report form of CHIP-Child Edition (O), 210  
patient participation, ethnic differences (O), 328  
predictors of children's health care use (O), 232  
understanding caregivers' help-seeking (O), 447  
urban parents and managed care (O), 336

Chronic disease  
depression and use of acute medical services  
Medicare beneficiaries (O), 502  
diabetes knowledge management (O), 610  
health effects of cost-related medication restriction (O), 626  
interpreting HRQoL in disabling conditions (O), 1143  
outcomes research priorities, private purchaser perspective (O), III-6  
risk factors for major depression (O), 502  
role of perceived team effectiveness (O), 1040

Claims data  
comparison of comorbidity indices (O), 482  
diabetes service receipt and mental disorders (O), 1167

Medicare data and cancer surveillance (O), 1111

Classification, clinical risk groups (O), 81

Classification and regression tree (CART), understanding caregivers' help-seeking (O), 447

Clinical risk groups, classification system for risk-adjusted capitation-based payment and health care management (O), 81

Clinical trial  
cost measurement in economic evaluations of health care (O), 740  
use of health marker states and preference instruments (O), 1132

Cluster analysis, discrete state analysis of clinical data (O), 183

Cohort study, new theory of patient satisfaction (O), 726

Colorectal cancer  
decreasing variation in hospice use (O), 116  
treatment and referral patterns (O), 901

Comorbidity indices, comparison  
Elixhauser and Charlson/Deyo methods (O), 355  
patients with head and neck cancer (O), 482

Computerized knowledge management, diabetes care (O), 610

Confidentiality, Health Insurance Portability and Accountability Act privacy rule (O), 321

Congestive heart failure, management, race/ethnicity differences (O), 680

Congruency, self-report and provider records, depressed elders (O), 952

Consensus development, quality measures for mental health care (BR), 1246

Continuity of care  
changes in usual source of care (O), 975  
first 3 years of life (O), 91

Continuous positive airway pressure therapy, sleep apnea (O), 764

Copayments, cost-sharing, patient knowledge and effects on seeking ED care (O), 290

Coronary artery bypass grafting, outcomes and processes of care (O), 59

Coronary care units, cardiac disease outcomes and (O), 147

Cost and quality control  
health effects of cost-related medication restriction (O), 626  
strategies to control costs and quality (O), III-24

Cost-benefit analysis, discrete state analysis of clinical data (O), 183

Cost-control strategies, outcomes research priorities, private purchaser perspective (O), III-6

Cost-effectiveness  
disease management programs for depression (O), 1211  
indirect utility scores for rheumatoid arthritis (O), 1125

Cost measurement, economic evaluations of health care (O), 740

Cost offset, effect of alcoholism treatment on medical care use (O), 395

Costs and cost analysis  
clinical risk groups (O), 81  
cost of care, diabetes patients (O), 102  
cost-related medication restriction (E), 623  
drug spending in Canada, recent trends and causes (O), 635  
economies of scale in Institutional Review Boards (O), 817

Health effects of cost-related medication restriction (O), 626

Hospitalization and mortality from lower respiratory infection (O), 860

Insurance and prescription expenditures (O), 439

Net savings from reference pricing for ACE inhibitors (O), 653

Cost sharing  
net savings from reference pricing for ACE inhibitors (O), 653

inhibitors (O), 653

Patient knowledge and effects on seeking ED care (O), 290

Cross-cultural validity, within framework of Rasch model (O), I-37

**D**

Databases, claims data and mental health services (O), 960

Data quality, minorities with limited English proficiency (O), 893

Death and dying  
end-of-life care (E), 406  
quality of death (O), 423

Decision making  
altruism, incentives, and organ donation (O), 378  
clinical, effects of payment method (O), 297  
formulary, provider perceptions of pharmacy management (O), 361  
help with health insurance decisions (O), 1091

Physician  
international medical graduate status and specialist choice (O), 747  
tamoxifen therapy for older patients with breast cancer (O), 700

Dental care, first 3 years of life (O), 91

Depression  
adherence to treatment guidelines, effects of pharmaceutical promotion (O), 1176  
antidepressant use  
differences among patient treatments in Veterans Administration (O), 551  
nursing homes, impact of prospective payment system (O), 48  
nursing homes, organizational characteristics (O), 992

Care  
gender differences in quality improvement (O), 1186  
monitoring (O), 522  
quality, patients with diabetes and major depression (O), 1222

Chronic illness and use of acute medical services, Medicare beneficiaries (O), 502  
disease management programs (O), 1211  
elders, congruency of self-report and records (O), 952

Major  
arthritis and heart disease as risk factors (O), 502  
diabetes and, quality of depression care (O), 1222  
treated and untreated, longitudinal population-based study, 543

Management, improved, work outcomes and (O), 1202  
Monitoring treatment outcomes with PHQ-9 (O), 1194

Pharmacotherapy for, quality measurement (O), 532

treatment in primary care (E), 1153  
 20 years of progress (E), 499  
 Depressive symptoms, IRT analysis of CES-D mode effect (O), 281  
 Diabetes  
 care, organizational factors (O), 840  
 clinical management strategies (E), 825  
 computerized knowledge management (O), 610  
 cross-sectional vs longitudinal performance assessments (O), II-34  
 health insurance status, medication underuse, and outcomes (O), 102  
 missed appointments and poor glycemic control (O), 110  
 patients with diabetes and major depression, quality of depression care (O), 1222  
 practice characteristics and quality of care (O), 829  
 quality of care (E), 99  
 service receipt and mental disorders (O), 1167  
 Diagnostic errors, accuracy of administrative data (O), 1066  
 Differential Item Functioning (DIF), cross-cultural validity within framework of Rasch model (O), I-37  
 Diffusion of technology, treatment for ductal carcinoma in situ, elderly women (O), 267  
 Direct observation, comparison with NAMCS measurement approach (O), 276  
 Direct-to-consumer advertising, effects on adherence to depression treatment (O), 1176  
 Disability  
 assessment, comparing alternative measures of functional limitation (O), 19  
 interpreting HRQoL in disabling conditions (O), 1143  
 24-month Medicare waiting period (O), 387  
 Discourse analysis, method for evaluating quality of medical interpretation (O), 71  
 Disease management, outcomes research, strategies to control costs and quality (O), III-24  
 Drug benefits plans, net savings from reference pricing for ACE inhibitors (O), 653  
 Drug prescriptions  
 benefits, Medicaid acquisition and, elderly (O), 1056  
 expenditures, insurance effect, elderly (O), 439  
 Drug therapy, asthma prescription measures (O), 465  
 Drug utilization

telecommunications system for sleep apnea (O), 764  
use of health marker states and preference instruments (O), 1132

## R

**Race**  
access and county racial composition (O), 707  
differences in congestive heart failure management (O), 680  
intensity of medical monitoring, "watchful waiting" for prostate cancer (O), 239  
nursing home quality and (O), 456  
regular mammogram and Papanicolaou test screening (O), 914  
risk of inadequate prenatal care (O), 416  
Racial disparities  
cancer screening rates, Peters-Belson approach (O), 789  
insurance policies and perceived quality of primary care (O), 966  
lipid-lowering agent use in Medicaid patients with cardiovascular disease (O), 1009  
race and nursing home quality (O), 456  
race/ethnicity and medical monitoring (O), 239  
**Rasch analysis**  
applications in health care (E), I-1, I-73  
comparing Rasch-based methods (O), I-25  
controversy and the Rasch model (O), I-7  
cross-cultural validity within framework of Rasch model (O), I-37  
International Conference on Objective Measurement (E), I-1  
**Rectal cancer, cost measurement in economic evaluations of health care (O)**, 740  
**Referral**  
automatic referral to cardiac rehabilitation (O), 661  
patterns, colorectal cancer (O), 901  
**Rehabilitation**  
automatic referral to cardiac rehabilitation (O), 661  
cross-cultural validity within framework of Rasch model (O), I-37  
outcome measurement, refining conceptual basis (O), I-62  
PPS, instrument substitution (O), 155  
**Reimbursement methods, prospective payment system, impact on antidepressant use in nursing home residents (O)**, 48  
**Reliability**

activity outcome measurement for postacute care (O), I-49  
creation of minimum item sets, comparison of separation ratio and coefficient  $\alpha$  (79), I-17  
parent report form of CHIP-Child Edition (O), 210  
reliable evaluations of individual clinicians (O), 259  
Report cards, risk-adjusted outcome and hospital volume (O), 367  
Reproducibility of results, claims data and mental health services (O), 960  
Respiratory infections, hospitalization and mortality, nursing home residents (O), 860  
Response rates, minorities with limited English proficiency (O), 893  
Review committees, economies of scale in Institutional Review Boards (O), 817  
Rheumatoid arthritis  
methods of assessing utility values (O), 1125  
relationship between disease-modifying antirheumatic drug use and specialty care (O), 907  
Risk adjustment  
clinical risk groups (O), 81  
estimating health-related quality of life (O), 569  
mortality, social support and, frail older population (O), 779  
outcomes reports and hospital volume (O), 367  
predicting healthcare costs (O), 1027  
Rural health, outcomes of states' support-for-service programs (O), 560

**S**

Safety net  
national health insurance (E), 403  
trends and variation (O), 408  
Schizophrenia, discrete state analysis of clinical data (O), 183  
Screening  
alcohol, drug, and mental problems, in primary care (O), 1158  
cancer screening rates, ethnic/racial disparities, Peters-Belson approach (O), 789  
opportunist cervical cancer screening, effectiveness and efficiency (O), 600  
regular mammogram and Papanicolaou test screening (O), 914  
Self-management  
missed appointments and poor glycemic control (O), 110  
small-group arthritis self-management interventions (O), 346  
Self-report  
cost measurement in economic evaluations of health care (O), 740  
provider records and, congruency, depressed elders (O), 952

Service line organization, analysis, effects of organization on medical utilization (O), 28  
SF-12 (health status measure)  
estimation of preference-based measure of health (O), 851  
mapping to HU13 and VAS, managed care population (O), 851  
Shoulder function, problems, expectations and outcomes (O), 139  
Skin cancer, variations in practice between VA and private setting (O), 1019  
Sleep apnea, management, telecommunications system (O), 764  
Social desirability, health symptom reporting (O), 875  
Social Security Disability Insurance, 24-month Medicare waiting period (O), 387  
Social stigma, international medical graduate status and specialist choice (O), 747  
Social support, risk-adjusted mortality and, frail older population (O), 779  
Socioeconomic factors  
assessment of community mental health centers (O), 251  
disparities in healthcare outcomes (E), 939  
outcome from intensive care (O), 943  
treatment choices for ductal carcinoma in situ (O), 267  
Specialty care  
relationship between disease-modifying antirheumatic drug use for rheumatoid arthritis and specialty care (O), 907  
tamoxifen therapy, older patients with breast cancer (O), 700  
Standard gamble, use of health marker states and preference instruments (O), 1132  
Standardized patients, accuracy of administrative data (O), 1066  
Standards, nursing process outcome linkage research (O), II-40  
State health policy, outcomes of states' support-for-service programs (O), 560  
Statistics, drug spending in Canada (O), 635  
Stroke, quality improvement interventions evaluation (O), 690  
Structural proxy, for hospital quality, nurse staffing (E), 1  
Student loans and scholarships, outcomes of states' support-for-service programs (O), 560  
Substance abuse treatment  
primary care settings (O), 1158  
services for women (O), 1117  
Surgical outcomes, satisfaction with, and phenomenology of embodiment (E), 715  
Survey methods, Peters-Belson approach to study disparities (O), 789  
Survey modes, minorities with limited English proficiency (O), 893  
Survey research  
children's medical care access (O), 884  
incentives for organ donation (O), 378  
provider perceptions of pharmacy

management (O), 361  
Survival, social support and risk-adjusted mortality (O), 779  
Symptom reporting, phone versus mail (O), 875

**T**

Tamoxifen therapy, recommendation, physician specialty and perceptions (O), 700  
Teams and teamwork  
effective, quality of care and (E), 1037  
measuring team performance, long-term care setting (O), 472  
patient satisfaction and teamwork culture, in hospitals (O), 1037  
role of perceived team effectiveness (O), 1040  
Telecommunications system, sleep apnea management (O), 764  
Theoretical models, Quality Health Outcomes Model (O), II-4

Theory  
new theory of patient satisfaction (O), 726  
satisfaction with treatment outcome (O), 718

Therapeutics, new opportunities, outcomes research (O), III-39  
Tobacco cessation, smoking guidelines in VAMCs (O), 1100  
Total hip replacement, measuring change in health, comparing Rasch-based methods (O), I-25  
Traditional healing, use among America Indians (O), 670

Transesophageal echocardiography, outcomes and processes of care for coronary bypass surgery (O), 59  
Translation, method for evaluating quality of medical interpretation (O), 71

Translational research, practice-based research networks (O), III-45  
Treatment  
guidelines, measuring quality of pharmacotherapy for depression (O), 532  
patterns, colorectal cancer (O), 901  
race/ethnicity and medical monitoring (O), 239

trends, psychotropic medications for panic disorder (BR), 1242

**U**

Uninsured  
front-line bureaucracies and moral mechanics of health care (E), 303  
national health insurance, failing expectations and safety net (E), 403  
rationing access to care (O), 303  
trends and variation in safety net (O), 408  
Usual source of care, changes, associations with perceptions of health care access, quality, and use (O), 975  
Utilities  
estimation of preference-based measure of

health from SF-12 (O), 851  
indirect utility scores for rheumatoid arthritis (O), 1125  
mapping the SF-12 to HU13 and VAS (O), 851  
measurement, quality of death (O), 423  
use of health marker states and preference instruments (O), 1132

**Utilization**  
America Indians, biomedical and traditional service use (O), 670  
asthma prescription measures (O), 465  
chronic illness and depression, Medicare beneficiaries (O), 502  
congruency of self-report and records, depressed elders (O), 952  
coronary care units and cardiac disease outcomes (O), 147  
drug spending in Canada, recent trends and causes (O), 635  
effect of alcoholism treatment on medical care use (O), 395  
Hispanic health care disparities (O), 313  
management, strategies to control costs and quality (O), III-24  
medical, effects of organization, analysis of service line organization (O), 28  
net savings from reference pricing for ACE inhibitors (O), 653

outpatient, older patients with serious mental illness (O), 1073  
persons with HIV (O), 129  
predictors of children's health care use (O), 232  
understanding caregivers' help-seeking (O), 447  
use of antidepressant medications (O), 551

## V

**Validity**  
comparison of NAMCS measurement approach with direct observation (O), 276  
creation of minimum item sets, comparison of separation ratio and coefficient  $\alpha$  (79), I-17  
parent report form of CHIP-Child Edition (O), 210  
procedure codes (O), 801  
**Variation**  
decreasing, in hospice use (O), 116  
geographic, in safety net (O), 408  
Veterans, accuracy of surname matching in Medicare (O), 810  
Veterans Affairs healthcare system, use of antidepressant medications (O), 551  
Veterans Affairs medical centers, smoking guidelines (O), 1100

Veterans Health Administration diabetes care (E), 99  
predicting resource use in primary care (O), 123

Visual Analog Scale, use of health marker states and preference instruments (O), 1132

Visual function, creation of minimum item sets, comparison of separation ratio and coefficient  $\alpha$  (79), I-17

**Vulnerable populations**  
cost-sharing, patient knowledge and effects on seeking ED care (O), 290  
rationing access to care to medically uninsured (O), 303

## W

Waiting period, 24-month, for Medicare, cost of eliminating (O), 387  
**Women**  
comparing alternative measures of functional limitation (O), 19  
drug treatment and services (O), 1117  
**Workforce**  
improved depression management and work outcomes (O), 1202  
international medical graduate status and specialist choice (O), 747
